These information sessions aim to inform parents of young people in Year 9 and above with an Education, Health and Care Plan about relevant topics on preparing for adulthood.

The first webinar will give an overview of Preparing for Adulthood and of the main education/training options at age 16+ and 18/19+. The second webinar will provide information on how the social care and travel training services can support in preparing young people for adulthood. The third webinar will introduce the health service's input to preparing for adulthood.

There will be an opportunity to ask questions after all sessions. Please note that the second webinar is a recording of a session that was delivered earlier in the year and so staff from the social care and travel training services will not be present to answer questions, although questions can be forwarded to them.
